ASBESTOS NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (NESHAP) DEMOLITION/RENOVATION EXEMPTION FORM

This form is a checklist for applicability to the Asbestos NESHAP demolition/renovation process in accordance with 40 Code of Federal Regulations, Part 61, Sub-part M, § 61.145.

Project Description

Job Site Address: _____
City and County: _____

Owner's Name: _____
Owner's Telephone Number: _____
Owner's Mailing Address: _____
City, State, Zip Code: _____

Contractor's Name: _____
License Number/Phone No: _____
Contractor's Mailing Address: _____
City, State, Zip Code: _____

- | | | |
|---|-----|----|
| 1. Residential building with more than four dwelling units or is a facility? | YES | NO |
| 2. Does this renovation/demolition involve multiple (more than one) residences on the same site by the same owner/operator? | YES | NO |
| 3. Demolition is for commercial development or highway construction? | YES | NO |
| 4. Is this an intentional burning of a residence or commercial building for the purpose of demolition and/or training? | YES | NO |
| 5. Is this a commercial renovation/alteration, including relocation, wrecking, or taking out any load/supporting structural member of the building? | YES | NO |

If any answer is YES, the following is required:

- A "thorough inspection" is required by an Asbestos Hazard Emergency Response Act (AHERA) certified building inspector for those portions of the building to be demolished, or renovated, for the presence of asbestos.
- A NESHAP notification form needs to be submitted 10 working day prior to demolition/renovation, even when no asbestos is present.

For additional information, please contact the ADEQ NESHAP Coordinator at (602) 207-2333 or, toll free in Arizona, (800) 234-5677, Ext. 2333.

The applicant attests that this project **is**_____ or **is not**_____ subject to notification requirements.

Signature of Applicant	Title	Date

Asbestos Renovation and Demolition Activities NESHAP Notification Process

Purpose

To protect public health from exposure to regulated asbestos-containing material (RACM) during National Emission Standards for Hazardous Air Pollutants (NESHAP) facility renovation and/or demolition activities, asbestos removal, transport and disposal, and closely monitoring those activities for proper notification and asbestos emissions control. Asbestos is known to cause cancer and other respiratory diseases in humans.

Requirements?

Prior to the commencement of demolition or renovation of the affected NESHAP facility an Asbestos Hazard Emergency Response Act (AHERA) certified building inspector must thoroughly inspect the affected facility or part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including friable and non-friable asbestos-containing materials (ACM).

What is a NESHAP facility?

A NESHAP facility is any institution, commercial, public, industrial or residential structure (including residential cooperatives with individual dwelling units and condominiums), ship and active or inactive waste disposal site. Asbestos cement pipelines are included as NESHAP facility components.

Fees

There are no ADEQ permit fees involved with this program. Counties and cities may have permit requirements for building demolition and renovation activities.

Contact

For work in all counties, except Maricopa, Pima and Pinal, contact the ADEQ Asbestos NESHAP Program at (602) 207-2333 or (602) 207-4553 or, toll free in Arizona, (800) 234-5677, Ext. 2333 or Ext. 4553. Address: 3033 N. Central Ave., T05-5109B Phoenix, AZ 85012, Fax (602) 207-2366.

For work on tribal lands in Arizona, contact EPA Region 9 NESHAP coordinator in San Francisco at (415) 744-1145.

You may obtain asbestos NESHAP information and asbestos NESHAP forms at www.adeq.state.az.us/envIRON/air/complian/asbestos.html.

Time Frame

For all demolitions, even when no asbestos is present, and renovations involving threshold amounts of RACM, provide the NESHAP agency overseeing the job site with written notice of intention to demolish or renovate at least 10 working days prior to the demolition or renovation activity. Threshold amounts of RACM are: 260 linear feet or more on pipes; 160 square feet or more on other facility components; or 35 cubic feet or more off facility components.

Exemptions

Residential structures with one to four dwelling units (unless classified as an installation, meaning any building or structure or any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator or owner or operator under common control).

Statutory Citations

Title 40, Code of Federal Regulations, Part 61, Subpart M, Asbestos NESHAP; Arizona Revised Statutes § 49-421 et. seq. and § 49-471 et. seq.; Arizona Administrative Code R-18-2-1101.

Asbestos Abatement, Renovations and Demolitions - NESHAP Notification Process

Step 1. Determine if your facility is a NESHAP facility

\

Step 2. An AHERA certified building inspector conducts an inspection for the presence of asbestos.

\

Step 3. Submit a NESHAP notification to ADEQ 10 working days prior to disturbance of RACM for renovations with RACM equal to or greater than threshold amounts.

\

Step 4. Demolitions must submit NESHAP notification form 10 working days prior to demolition, regardless of whether asbestos is present.

\

Step 5. For projects in Maricopa, Pima or Pinal counties, contact county authorities for notification and permit fee requirements.
